

Three years ago we gathered in Rotterdam under the MOTTO "Move to connect". This time we chose the slogan "Stay Connected". The aim for a continuing and not ending after our Farewell, but to have had a sustainable European Rally. We developed the idea to start a mutual European project. One that will fit for the majority of our friends. Three possible themes of which we want you to pick one to be the winner.

1. Women and technical skills

- Successful usage and proficiency of their computer
- Help in obtaining a technical job
- Teaching the repairs of household equipment
- Usage of tools for fixing dripping faucets, congested pipes and other maladies

2. Violence towards women

There are countless organizations working on this subject but women, especially with children, should find a return into a new life.

- Learn to say "No" and mean it
- Self defense - training from proper institutions
- family protection: and how do I protect myself?
- how do I obtain a secure internet?

3. Professional Equality, educational as well as in the working world

- Support in day-to-day schooling,
- financial aid for coaching as well as participation in cultural and athletic activities
- Equal salaries
- No job discrimination

Should you be specifically interested, please add your email address to your ballot. Or send me a separate email or better yet to our: iweurorally2022@gmail.com

We will announce the winner at the GALA Evening.

Gala Evening

Today we chose 3 possibility's for a future project

Let's look at the results

it was a very close vote.

Technical skills won by a small margin

the second close vote was Violence towards women

since they also need the technical skills it will also help them

the countries and their NATIONAL REPRESENTATIVES CAN DECIDE IF THERE COUNTRY WANTS TO JOIN.

Should there be a surplus generated by the Rally it will be used as a basic start for the winning project.
